
三个回路位于互不相同的节点上

两两不接触，三阶乘积也保留

$$P_1 = G_1 G_2 G_3, \quad \Delta_1 = 1$$

$$\Delta = 1 - (L_1 + L_2 + L_3) + (L_1 L_2 + L_1 L_3 + L_2 L_3) - L_1 L_2 L_3$$

$$T = \frac{P_1 \Delta_1}{\Delta}$$
